

The International Aerospace Quality Group (IAQG) is pleased to announce the 2016 release of **AS/EN 9120 Quality Management Systems - Requirements for Aviation, Space and Defense Distributors standard** to publication bodies. All certified organizations desiring to continue AS/EN 9120 certification will be required to transition to this new standard, with transition activities occurring according to the table below.

IAQG would like all users to be aware of AS/EN 9120:2016 Quality Management Systems (QMS) deployment support material available on the public IAQG website at <http://www.sae.org/iaqg/organization/9120.htm>.

The AS/EN 9120:2016 deployment support material includes:

- Key Changes presentation that includes Clause-by-Clause information
- Correlation Matrix that relates the 2016 to the 2009 standard version and relates the 2009 to the 2016 standard version
- Frequently Asked Questions (FAQ)

IAQG is providing a series of free webinars to stakeholders to help users understand the standard changes and intent. Please select the webinar link that fits best with your schedule and do not sign-up for multiple sessions of the same webinar. The content will be the same and we would like many organizations to have an opportunity to attend. After you register using the link below, you will receive an e-mail with instructions on how to participate.

9120B:2016 Key Changes (1.5 Hours) – Overview of quality management principles, key changes in ISO 9001 and AS/EN 9120, Clause-by-Clause review and high level summary of changes.

- November 15: 0900-1030 Eastern Time
